

Therapeutic Services is a program of study within the **Health Science Career Cluster**. A Career Cluster is a grouping of occupations and broad industries based on commonalities. There are 16 Career Clusters.

Career clusters link what students learn in school with the knowledge and skills they need for success in college and careers. The Health Science Career Cluster focuses on planning, managing, and providing therapeutic services, diagnostic services, health informatics, support services, and biotechnology research and development.

There are five programs of study in the Health Science Career Cluster:

- Biotechnology Research and Development
- Diagnostic services
- Health Informatics
- Support Services
- Therapeutic Services

Employment Outlook

The job outlook for **Nursing** is good. Growth in this occupation will be due in part to technological advances that allow more medical problems to be treated. Rapid growth is expected in home health care and long-term care facilities (Career Information System, 2007). Wages vary according to level of education and employer (Texas Workforce Commission, 2007). Nationally, salaries for registered nurses range from \$37,300 to \$74,760 (Occupation Outlook Handbook, 2006-2007).

Using this brochure

Inside you will find a suggested **program of study** that has lots of helpful information. The model is an example of the types of courses and extended learning experiences that are important for the **Therapeutic Services Program of Study**. Use this model to plan your course schedule, educational experiences, and career choices.

At the top of the model, you will find a specific **career goal** with the corresponding **O*NET code**. The O*NET code is an official classification of jobs and can be used to locate career-related information. Your teacher, counselor, or media center should be able to help you locate further information.

The upper left side of the model highlights the **core courses and career-related electives** in high school that will help prepare you for your career goal. This model is based upon the Recommended High School Graduation Plan and can easily be adapted for the Distinguished Achievement High School Graduation Plan.

The upper right side of the model highlights examples of **extended learning experiences** that can enhance your knowledge and skills for your career goal. You will find examples of curricular activities; such as participation in Career and Technical Student Organizations like HOSA, career learning experiences, service learning activities, and extra-curricular activities.

The lower left side of the model indicates **industry licensures/certifications** and **on-the-job training experiences** that may be available to complete while still in high school. This section also highlights the various levels of **post-secondary education** and examples of **career options** available to you once you have completed that level of education and training.

The lower right side of the model contains examples of **professional associations** available for health care professionals. Many of these organizations allow preprofessional membership while enrolled in a post-secondary program. Most organizations have websites which can be easily located by entering the organization name in available search engines.

Thinking about a career in Nursing?

This program of study may be for you! Registered Nurses (RNs) work with patients in hospitals, in doctors' offices, and in long-term care facilities to promote health. They also work in public health facilities such as government agencies and schools. Look inside to see the suggested coursework and learning opportunities that will prepare you for an exciting and rewarding career.
